V. PEER REVIEWING PROCESS

Manuscripts are assigned to the Executive Editor. The papers, before being sent for review, are first checked with an anti-plagiarism software. The Executive Editor sends, generally through the electronic platform or by e-mail, the received articles, without the names and affiliations of the authors, to 2 experts in the field. All the reviewers of a paper remain anonymous to the authors and act independently. They have different affiliations, usually located in various towns/countries, and they are unaware of each other's identities. If the two reviewers' decisions differ, the paper is sent to a third reviewer.

The reviewers' evaluations and the Executive Editor's comments enable the Editor-in-Chief to make a decision. This decision, along with the comments, is transmitted to the authors via e-mail. A decision is made usually within ten weeks of the receipt of the manuscript. The Editor-in-Chief will inform authors whether a manuscript is accepted, should be revised, or is rejected. Minor revisions should be returned within four weeks of the decision; significant modifications should be made within three months. Manuscripts not revised within this time will be withdrawn from consideration unless there are extenuating circumstances.

The Editor-in-Chief makes the final decision for publication based on the scrutiny of reviewers and the Journal's scope.

The Editor-in-Chief is responsible for the quality and selection of manuscripts chosen to be published, and the authors are always responsible for each article's content.

VI. ARTICLE WITHDRAWAL

This procedure shall be used only for articles in the preparatory process for printing, which are a preliminary version of the papers and may contain some errors or have been accidentally submitted twice. As an exception, the measure can be applied to articles that may violate the code of professional ethics, such as

multiple submissions, fraudulent authorship, plagiarism, data falsification, or copyright infringement.

Articles in the preparatory process for printing (articles that have been accepted for publication but have not been officially published) that include errors or are accidental duplicates of other articles already published, violate professional ethics, and shall be removed from the journal's portfolio by the Editorial team.

VII. PUBLISHED ARTICLE RETRACTION

This procedure can be applied to published papers that violate the code of professional ethics (e.g., multiple submissions, false attribution of authorship, plagiarism, fraudulent or misleading data, etc.). The paper retraction can be carried out by the authors or by the Editor-in-Chief, in accordance with the scientific community's recommendations.

In this regard, the editorial staff will go through the following steps:

- a withdrawal note entitled 'Retraction of the paper: [title of the article]' signed by the authors and/or Editor-in-Chief will be published in the forthcoming printed issue of the journal. The note will be included in the Contents of the journal;
- in the electronic version of the proximate issue, a link will be added to the original article;
- the online article will be preceded by a screen (pop-up) that will contain the retraction note. From this screen, the reader will be able to move on to the article itself;
- the original article will be kept unchanged, except for a watermark inserted in .pdf, indicating on each page that the article is "Retracted".
